

## Scenario 1 — Standards Alignment Analysis

**Review Date** Laura  
 9/18/2026  
**Overall Assessments** Pending  
**Source Materials**  
**Working Note** Record one finding per row. Use

| Finding ID | Strength / | Workflow /                                   | Standard / Item | Finding Type | Observation                                  | Evidence                                        | Impact                                                               | Severity | Recommendation                                                                      | Status    |
|------------|------------|----------------------------------------------|-----------------|--------------|----------------------------------------------|-------------------------------------------------|----------------------------------------------------------------------|----------|-------------------------------------------------------------------------------------|-----------|
| S1-01      | Concern    | Final QA / Grade-Level Depth                 | 5-PS1-3         | Consistency  | Final QA states that all SEP, DCI, and       | Grade-Level Depth Validation marks              | Final QA does not appear to reconcile a failed                       | Major    | Final QA should identify and reconcile failed depth-validation                      | Confirmed |
| S1-02      | Concern    | Crosswalk / Evidence Review & Classification | Overall Output  | Completeness | The crosswalk includes standards that do not | Crosswalk includes 4-PS3-2 and 5-PS1-3; final   | It is unclear whether these standards were intentionally excluded or | Major    | Confirm expected inclusion criteria and, if <b>all</b> crosswalked standards should | Confirmed |
| S1-03      | Concern    | Executive Summary                            | Overall Output  | Accuracy     | The executive summary reports seven          | Standards 4-PS3-2 and 5-PS1-3 appear in earlier | The summary understates the number of standards requiring            | Major    | Resolve the missing classifications for 4-PS3-2 and 5-PS1-3, then                   | Confirmed |
